The Specification of Apprenticeship Standards for Wales (SASW)

Date of issue: October 2016

The Specification of Apprenticeship Standards for Wales (SASW)

Audience

Sector Skills Councils, standard setting bodies, employers, trade unions, learning providers and awarding organisations.

Overview

The SASW specifies statutory requirements to be met by apprenticeship frameworks. Apprenticeship frameworks help to deliver high-quality apprenticeship programmes that equip individuals with the skills they need for successful careers and equip employers with the skilled workforce needed to help them compete and grow. Updated Guidance for issuing authorities has been issued as a separate document. This version of SASW replaces the version issued in May 2013.

Action required

With effect from October 2016 this version of SASW should be used in preparing or modifying apprenticeship framework documents.

The Specification of Apprenticeship Standards for Wales - Statutory Requirements (as modified)

Introduction
<p>1. The <i>Specification of Apprenticeship Standards for Wales (SASW)</i> sets out the minimum requirements to be included in a recognised Welsh apprenticeship framework. Compliance with the SASW is a statutory requirement of the Apprenticeships, Skills, Children and Learning Act 2009, this version incorporates modifications made to the original SASW published in May 2013.</p> <ul style="list-style-type: none"> • It incorporates modifications to allow “proxy” qualifications as a recognised alternative to Essential Skills as detailed under each apprenticeship framework level. SASW has also been modified to allow a greater flexibility in obtaining occupational competence by allowing learning to be underpinned by National Occupational Standard (NOS) where they exist, or industry-wide standards or professional standards where they do not. The final modification to SASW is to Employer Rights and Responsibilities (ERR) which are no longer compulsory in SASW frameworks. Other consequential changes have also been made as well as some reordering. • Updated Guidance for Welsh issuing authorities is also being issued in a separate document. Welsh issuing authorities must have regard to this updated Guidance in reaching a decision on whether a framework submission complies with SASW. • The modifications to SASW have been made by order by the Welsh Ministers.

Section reference

All Apprenticeship Frameworks	
2. An apprenticeship framework must specify its level using the national level descriptors described in the Credit and Qualifications Framework for Wales ('CQFW'). A framework must be at Level 2 to qualify as a Foundation Apprenticeship, be at Level 3 to qualify as an Apprenticeship and be at a Level between 4 and 7 to qualify as a Higher Apprenticeship.	Section 31(2)(a)
3. An apprenticeship framework must include a two digit Standard Occupational Code (SOC) to identify the sector to which it relates. Frameworks identified by the same two digit SOC code ('duplicate frameworks') are not permitted	Section 31(2)(a)
4. A framework level must specify as a Welsh certificate requirement the total volume of learning in the form of CQFW credits. The number of credits must reflect the	Section 31(2)(a)

learning required to achieve full competency in the skill, trade or occupation to which it relates.	
5. The calculation of credit should be derived from the definition contained in the CQFW and be consistent with the sum of published learning hours given for each qualification by the relevant awarding bodies or organisation(s).	Section 31(2)(a)
6. A framework must be at a minimum of 37 credits but may where appropriate exceed this; in many cases frameworks will significantly exceed 37 credits. A framework must not be so narrow that it is only relevant to a specific workplace where the apprenticeship was attained.	Section 31(2)(a)

Qualifications – Competence and Knowledge	
7. The framework must identify the qualification(s) that demonstrate(s) the relevant occupational competencies as the ‘occupational competencies qualification’ and the occupational knowledge as the ‘technical knowledge qualification’ in relation to the framework.	Section 31(2)(c)(ii) and (iii)
8. The occupational competencies and technical knowledge qualification(s) must be either: <ul style="list-style-type: none"> a. one offered by an awarding body or awarding organisation that is recognised by a UK qualifications regulator or by a Further Education Institution or Higher Education Institution regulated by QAA (or any successor); or b. one offered by a recognised professional body provided its achievement confers eligibility for professional recognition Both the occupational competencies and technical knowledge qualification must be achieved by the apprentice to qualify for a Welsh apprenticeship certificate.	Section 31(2)(a) Section 31(2)(c)(ii)
9. An apprenticeship framework must include: <ul style="list-style-type: none"> a. an integrated competencies qualification that also contains the relevant technical knowledge within it; or b. an occupational competencies qualification and relevant technical knowledge qualifications which taken together, demonstrate the relevant occupational competencies and the relevant technical knowledge. 	Section 31(2)(c)(ii)

<p>10. The framework developer will decide the balance of credits between occupational competencies and relevant technical knowledge qualifications. However the framework must specify:</p> <ul style="list-style-type: none"> a. a minimum of ten credits achieved from an occupational competence based qualification or the competence element of an integrated qualification, which specifically relates to the skill, trade or occupation and is based on the National Occupational Standards (NOS) where they exist, or industry-wide standards or professional standards where they do not for the employment sector for which the framework is designed and be at a level which reflects the job role; and b. a minimum of ten credits from a technical knowledge qualification or knowledge element of an integrated qualification, which provides the technical knowledge and understanding of the theoretical concepts specifically relating to the skill, trade or occupation to underpin occupational competence. The knowledge qualification element must equip the apprentice with the knowledge and understanding of the industry and its market; or c. a minimum of ten credits from an equivalent competencies qualification (non-CQFW) recognised by a professional body for a Higher Apprenticeship at Levels 4 -7 where the successful completion of such an apprenticeship is a recognised pathway to professional registration. 	<p>Section 31(2)(a)</p>
<p>11. The majority of the content of the occupational competencies qualification must be capable of being assessed from evidence gained through on-the job training in a workplace. This requirement applies at all framework levels, including any Higher Education qualifications specified either as the occupational competencies qualification or the integrated competencies qualification.</p> <p>The learning content must be achieved through:</p> <ul style="list-style-type: none"> a. an occupational competence based qualification or competence element of an integrated qualification, must be based on the National Occupational Standards (NOS) where they exist, or industry-wide standards or professional standards where they do not, for the employment sector to which the framework relates, specifically relating to the skill, trade or occupation of the framework and be at a level which reflects the job role; and a technical knowledge qualification or the 	<p>Section 31(2)(b) Section 31(2)(c)(ii)</p>

<p>knowledge element of an integrated qualification, must provide the technical knowledge and understanding of the theoretical concepts specifically relating to the skill, trade or occupation to underpin occupational competence. The knowledge qualification/element must equip the apprentice with the knowledge and understanding of the industry and its market; or</p> <p>b. the learning content from an equivalent competencies qualification recognised by a professional body for a Higher Apprenticeship, where the successful completion of such an apprenticeship is a recognised pathway to professional registration.</p>	
<p>12. Where the knowledge and competence elements are combined and recognised as a single integrated qualification, the two elements must be separately identified and separately assessed.</p>	<p>Section 31(2)(a) Section 31(2)(c)(ii) and (iii)</p>
<p>13. Where a qualification contained in an apprenticeship framework refers to a national framework (such as the CQFW, RQF or SCQF), it must be identified by Title, Level and where applicable the Qualification Reference Code.</p>	<p>Section 31(2)(a)</p>
<p>14. A framework must be reviewed periodically to ensure it is current and continues to meet the needs of the sector.</p>	<p>Section 31(2)(a)</p>
<p>15. A framework must carry both the date of its issue and the date by which it will be formally reviewed.</p>	<p>Section 31(2)(a)</p>
<p>16. A qualification for occupational competence must test the ability to carry out activities to the standards required for that occupation.</p>	<p>Section 31(2)(a)</p>

Additional Occupational Requirements	
<p>17. A framework may specify additional programmes of learning to meet specific occupational requirements. The framework developer must consult with the issuing authority for that sector, before any additional occupational requirement is included in a framework.</p>	<p>Section 31(2)(a)</p>
<p>18. Where additional occupational standards are included in a framework the framework must specify the learning outcomes to be attained. The learning outcomes may be specified as a formal qualification or be capable of independent assessment where attainment is not measured by means of a</p>	<p>Section 31(2)(a)</p>

qualification.	
19.A Higher Apprenticeship framework at Levels 4 - 7 may specify additional professional qualification(s) as recognised by the sector if they confer eligibility for professional status.	Section 31(2)(a)

Foundation Apprenticeship Frameworks (Level 2)

Qualifications Related to the Sector	
<p>20. A foundation apprenticeship framework must identify the occupational competencies qualification which must be achieved by the apprentice to qualify for a Welsh apprenticeship certificate, and which is the qualification required to demonstrate competence in performing the skill, trade or occupation to which the framework relates. The competencies qualification must be at Level 2 and be underpinned by National Occupational Standards (NOS) where they exist, or industry-wide standards or professional standards where they do not.</p>	<p>Section 31(2)(c)(iii)</p>
<p>21. A foundation apprenticeship must identify a technical knowledge qualification which must be achieved by the apprentice to qualify for a Welsh apprenticeship certificate. A technical knowledge qualification is the qualification required to demonstrate achievement of the technical skills, knowledge and understanding of the theoretical concepts and knowledge and understanding of the industry and its market relevant to the skill, trade or occupation to which the framework relates.</p>	<p>Section 31(2)(c)(ii)</p>
<p>22. A foundation apprenticeship framework must identify either:</p> <ul style="list-style-type: none"> a. an occupational competencies qualification at Level 2 and a separate technical knowledge qualification: or b. an integrated qualification at Level 2 which combines occupational competencies and technical knowledge elements in which each element is separately assessed. 	<p>Section 31(2)(a) Section 31(2)(c)(iii)</p>
Essential Skills	
<p>23. A foundation apprenticeship framework must specify as a Welsh certificate requirement the expected achievement levels of Essential Communications Skills and the Essential Application of Number Skills, these qualifications will be at least Level 1 or the relevant level determined by the industry.</p>	<p>Section 31(2)(c)(i)</p>
<p>24. Where Essential Skills qualifications are specified in a foundation apprenticeship framework, the apprenticeship framework must specify as a Welsh certificate requirement, the acceptance of one of the following recognised proxy qualifications for Communication:</p> <ul style="list-style-type: none"> a. GCSE or iGCSE qualification in English language or literature to at least grade G (Level 1 equivalent); or 	<p>Section 31(2)(c)(i)</p>

<ul style="list-style-type: none"> b. O Level qualification in English language or literature to at least grade E; or c. A/AS Level qualification in English language or literature to at least grade E; or d. SCQF Level 4 – Communication Core Skills (Oral communication and written communication); or e. SQA National 4 English; or f. Functional Skills or Key Skills literacy qualifications in English provided the proxy qualification(s) attained are at Level 1 or above. <p>And for Application of Number :</p> <ul style="list-style-type: none"> a. GCSE or iGCSE qualification in Mathematics to at least grade G (Level 1 equivalent); or b. O Level qualification in Mathematics to at least grade E; or c. A/AS Level qualification in Mathematics to at least grade E; or d. SCQF Level 4 – Numeracy Core Skill (Graphical Information and using number); or e. SQA National 4 Mathematics ; or f. Functional Skills or Key Skills numeracy qualifications in Mathematics provided the proxy qualification(s) attained are at Level 1 or above. 	
<p>25. A foundation apprenticeship framework may specify as a Welsh certificate requirement a qualification in Essential Digital Literacy Skills to at least Level 1, unless Digital Literacy is not relevant to effective performance in the skill, trade or occupation to which the framework relates.</p>	<p>Section 31(2)(c)(i)</p>

On-the-job training and off-the-job training

<p>26. A foundation apprenticeship framework must specify the total number of learning hours that an apprentice must receive to complete the framework. Learning hours relates to training which is designed to achieve clear and specific outcomes which contribute directly to the successful achievement of the apprenticeship framework.</p>	<p>Section 31(2)(b)</p>
<p>27. A foundation apprenticeship framework must specify the total number of off-the-job learning hours that an apprentice must receive to complete the framework.</p>	<p>Section 31(2)(b)</p>
<p>28. A foundation apprenticeship framework must specify the total number of on-the-job learning hours that an apprentice must receive to complete the framework.</p>	<p>Section 31(2)(b)</p>

<p>29. The balance of hours between on-the-job and off-the job training must relate to the proportion of workplace-based assessment required for the achievement of the competencies qualification.</p>	<p>Section 31(2)(b)</p>
<p>30. A foundation apprenticeship framework must specify that on-and off-the-job training must either have been received:</p> <ul style="list-style-type: none"> a. whilst working under an apprenticeship agreement; or b. during a qualifying period prior to working under an apprenticeship agreement ending on the date of application for an apprenticeship certificate. <p>A qualifying period of five years is recommended, but to meet the needs of their sector, frameworks may set a shorter or longer timescale than five years as the qualifying period.</p>	<p>Section 31(2)(b)</p>

Apprenticeship Frameworks (Level 3)

Qualifications Related to the Sector	
<p>31. An apprenticeship framework at Level 3 must identify the occupational competencies qualification which must be achieved by the apprentice to qualify for a Welsh apprenticeship certificate, and which is the qualification required to demonstrate competence in performing the skill, trade or occupation to which the framework relates. The competencies qualification must be at Level 3; underpinned by National Occupational Standards (NOS) where they exist, or industry-wide standards or professional standards where they do not.</p>	Section 31(2)(c)(iii)
<p>32. An apprenticeship framework at Level 3 must identify a technical knowledge qualification which must be achieved by the apprentice to qualify for a Welsh apprenticeship certificate. A technical knowledge qualification is the qualification required to demonstrate achievement of the technical skills, knowledge and understanding of the theoretical concepts and knowledge and understanding of the industry and its market relevant to the skill, trade or occupation to which the framework relates.</p>	Section 31(2)(c)(ii)
<p>33. An apprenticeship framework must identify either:</p> <ol style="list-style-type: none"> a. an occupational competencies qualification at Level 3 and a separate technical knowledge qualification; or b. an integrated qualification at Level 3 which combines occupational competencies and technical knowledge elements in which each element is separately assessed. 	Section 31(2)(a) Section 31(2)(c)(iii)

Essential Skills	
<p>34. An apprenticeship framework must specify as a Welsh certificate requirement the expected achievement levels of Essential Communications Skills and the Essential Application of Number Skills, these qualifications will be at least Level 2 or the relevant level determined by the industry.</p>	Section 31(2)(c)(i)
<p>35. Where Essential Skills qualifications are specified in apprenticeship framework, the apprenticeship framework must specify as a Welsh certificate requirement, the acceptance of one of the following recognised proxy qualifications for Communication :</p> <ol style="list-style-type: none"> a. GCSE or iGCSE qualification in English language or 	Section 31(2)(c)(i)

<p>literature to at least grade C (Level 2 equivalent); or</p> <ul style="list-style-type: none"> b. O Level Qualification in English language or literature to at least grade C; or c. A/AS Level qualification in English or literature to at least grade E; or d. SCQF Level 5 – Communication Core Skills (Oral communication and written communication); or e. SQA National 5 English; or f. Functional Skills or Key Skills literacy qualifications in English provided the proxy qualification(s) attained is at Level 2 or above. <p>And for Application of Number :</p> <ul style="list-style-type: none"> a. GCSE or iGCSE qualification in Mathematics to at least grade C (Level 2 equivalent); or b. O Level Qualification in Mathematics to at least grade C; or c. A/AS Level qualification in Mathematics to at least grade E; or d. SCQF Level 5 – Numeracy Core Skill (Graphical information and using number); or e. SQA National 5 Mathematics; or f. Functional Skills or Key Skills numeracy qualifications in Mathematics provided the proxy qualification(s) attained are at Level 2 or above. 	
<p>36. An apprenticeship framework may specify as a Welsh certificate requirement a qualification in Essential Digital Literacy Skills to at least Level 2, unless Digital Literacy is not relevant to effective performance in the skill, trade or occupation to which the framework relates.</p>	<p>Section 31(2)(c)(i)</p>

On-the-job training and off-the-job training	
<p>37. Requirements are as for a foundation apprenticeship framework at Level 2.</p>	<p>Section 31(2)(b)</p>

Higher Apprenticeship Frameworks (Levels 4 - 7)

Qualifications Related to the Sector	
38. A higher apprenticeship framework must identify the occupational competencies qualification which must be achieved by the apprentice to qualify for a Welsh apprenticeship certificate, and which is the qualification required to demonstrate competence in performing the skill, trade or occupation to which the framework relates. The competencies qualification must be at the level of the framework specified and be underpinned by National Occupational Standards (NOS) where they exist, or industry-wide standards or professional standards where they do not.	Section 31(2)(c)(iii)
39. A higher apprenticeship framework must identify a technical knowledge qualification which must be achieved by the apprentice to qualify for a Welsh apprenticeship certificate. A technical knowledge qualification is the qualification required to demonstrate achievement of the technical skills, knowledge and understanding of the theoretical concepts and knowledge and understanding of the industry and its market relevant to the skill, trade or occupation to which the framework relates.	Section 31(2)(c)(ii)
40. A higher apprenticeship framework must identify either: <ol style="list-style-type: none"> an occupational competencies qualification and a separate technical knowledge qualification at a minimum of Level 4; or an integrated qualification at a minimum of Level 4 which combines occupational competencies and technical knowledge elements in which each element is separately assessed; or specify an HNC, HND, Foundation Degree or Degree as the relevant technical knowledge qualification; or specify a relevant technical knowledge qualification recognised by a professional body that represents the occupational area. 	Section 31(2)(a) Section 31(2)(c)(iii)

Essential Skills

41. Requirements are as for an apprenticeship framework at Level 3.	Section 31(2) (c)(i)
---	----------------------

On-the-job training and off-the-job training

42. Requirements are as for a foundation apprenticeship framework at Level 2.	Section 31(2)(b)
---	------------------
