Higher Apprenticeships (Levels 4-7): Essential Skills requirements are as for an apprenticeship frameworks at Level 3.

CHANGES TO REQUIREMENTS FOR APPRENTICESHIP STARTS FROM 14TH OCTOBER 2016

Employer Rights and Responsibilities (ERR)

The final modification to SASW is to Employer Rights and Responsibilities (ERR) which is no longer compulsory in frameworks. Please refer to the Employer Rights and Responsibilities section within the framework document to confirm specific requirements.

Additional Information

It should be noted that SASW has also been modified to reflect existing improvements to Essential Skills Wales Qualifications. These improvements to ESW qualifications were signalled by the revised names:

- Essential Skills Wales Communication is now Essential Communication Skills (still 6 credits in size)
- Essential Skills Wales Application of Number Skills is now Essential Application of Number Skills (still 6 credits in size)
- Essential Skills Wales Information Communication Technology Skills is now Essential Digital Literacy Skills (still 6 credits in size)

Whilst there have been some amendments to the content of ESW qualifications, the most significant change has been to the assessment methodology for these qualifications.

From 1 January 2016, all new starts have had to follow the revised Essential Skill qualifications.

The updated version of SASW, and guidance documents, can be accessed here:

<http://gov.wales/topics/educationandskills/skillsandtraining/apprenticeships/providers/?lang=en&dgd>

Over the coming months, the Essential Skills section within AFO will be amended to reflect the SASW modifications and all current frameworks will be updated and reissued to incorporate these changes. In the meantime, if you are in any doubt as to the requirements of any framework then please contact the relevant Issuing Authority.

Purpose of this framework

Summary of the purpose of the framework

Vehicle Sales is big business with around 7.5 million new and used vehicles changing owners every year. As a whole the Automotive Retail Industry in the Wales turned over £4.8 billion in 2008 and Vehicle Sales accounts for 70% of that. Apprentices will work in a range of jobs in Vehicle Sales undertaking Trainee Sales Adviser and Trainee Sales Manager roles selling new and used vehicles. Customers expect excellent customer service, wide product knowledge and a good deal. Businesses expect staff to meet sales targets and build customer loyalty to help their businesses grow and remain profitable.

More Sales Advisers and Sales Managers in Vehicle Sales are needed to:

- replace those who retire or leave
- train as managers of the future

Looking at the profile of the Automotive Retail Industry in Wales:

- Skilled trade occupations make up a significantly larger than average share of the workforce at 44%, compared with 13% for other industries in Wales;
- Managers and leaders form the second biggest occupational group with only 6% qualified to a high skill level of Level 4 and above;
- Vehicle Sales is the second largest sub-sector and is predominantly made up of managers, sales and customer service staff and administrators;
- 26% of the workforce from the Automotive Retail Industry in Wales are self employed workers;
- The Automotive Retail Industry provides employment for around 23,000 people across 4,015 business units and is a major contributor to the economy in Wales, contributing £4.8 billion of total turnover in Wales in 2008;
- The majority of the workforce is aged between 25 and 44;
- The workforce is predominantly white, male, with females employed largely in secretarial and administrative jobs.

This new framework builds on the success of its predecessor, by including updated qualifications to meet the changing skills needs of employers and the new Specification of Apprenticeship Standards for Wales. This Apprenticeship will help to attract new people into the industry, tap into the talents of under-represented groups and contribute to the upskilling of the workforce at all levels. It is forecast that Vehicle Sales and Customer Service along with Managers and senior officials will be the occupations that will require the greatest amount of people.

The framework will also contribute to meeting the skills priorities in Wales by:

- providing flexible access to a high quality Level 2 and 3 skills programme, whichever entry route apprentices use, for those who prefer this style of learning and achievement;
- incorporating skills to improve the levels of general literacy, numeracy and ICT in Wales;
- using technical and competence qualifications, valued by employers, to help their businesses grow;
- developing Apprentice's employability skills, making them more attractive to all employers whichever career they choose;
- providing a career pathway into jobs and training at intermediate and higher technician level, to provide the skills which the economy needs to grow;
- building on the existing quality learning provision for the Automotive Retail Industry in Wales.

Aims and objectives of this framework (Wales)

The aim of this framework is to attract new people into vehicle sales from a wide range of backgrounds to replace those who leave or retire and to upskill the existing workforce in Wales.

Objectives of this framework are to:

1. contribute to increasing the number of existing staff qualified to Sales Adviser and Sales Manager level in Wales;
2. attract more applicants from women and other under-represented groups into Vehicle Sales posts at levels 2 and 3;
3. develop problem solving, communication, team working, literacy, numeracy and ICT skills which are a priority for the Automotive Retail Industry;
4. provide micro businesses, which account for the majority of businesses in the Automotive Retail Industry, with access to a quality training programme to help their businesses grow;
5. provide opportunities for career progression within Vehicle Sales and into management in the wider Automotive Retail Industry;
6. after further development and training, provide a pathway to foundation degree and to undergraduate programmes for those who chose to do so.

Entry conditions for this framework

This framework in Vehicle Sales would suit someone who enjoys interfacing with people.

Employers are looking to attract applicants who have a keen interest in working in the Automotive Retail Industry in Vehicle Sales jobs and who have basic literacy and numeracy skills on which this Apprenticeship will build.

Applicants to this Apprenticeship will be a mix of age and experience. As a guide, applicants may come from a range of routes including:

- work or work experience;
- training and/or experience which could include a portfolio showing what they have done;
- any of the Essential Skills Wales or Wider Key Skills;
- Pathways to Apprenticeships;
- Welsh Baccalaureate including the Principal Learning Qualifications in Engineering and Retail Business which has automotive retail content;
- a range of vocational or academic qualification(s).

RULES TO AVOID REPEATING QUALIFICATIONS

Processes exist to make sure that applicants with prior knowledge, qualifications and experience are not disadvantaged by having to repeat learning. Training providers and awarding organisations will be able to advise on the current rules for accrediting prior learning and recognising prior experience. Refer to the on and off the job training section for guidance about prior attainment and achievement. In the meantime, this is a short summary:

There are no relaxations or proxies for any qualifications specified in a framework in the Specification of Apprenticeship Standards for Wales (SASW), however, providers are encouraged to identify additional on-the-job training programmes that customise the learning to the new workplace.

1. Essential Skills Wales.

- If applicants already have GCSEs in English, Maths and/or Information and Communications Technology (ICT) they still have to do the Essential Skills Wales at the relevant level as these are new qualifications and proxies do not exist.
- Up to the 31 August 2011, if applicants already have achieved Key Skills at the relevant level, they will not have to do the relevant Essential Skills Wales (ESW), however, apprentices can be encouraged to complete ESW at a higher level if appropriate.

2. Knowledge qualifications. If applicants already have one of the Level 2 knowledge qualifications before they started their Apprenticeship, (see knowledge qualifications page in

this framework) they can count this and do not have to redo the qualification, providing that they have achieved this qualification within five years of applying for the apprenticeship certificate. For example they may have already achieved the knowledge element as part of the Welsh Baccalaureate. The hours they spent gaining this qualification will also count towards the minimum hours required for this framework.

3. Competence qualifications. If applicants already have the Level 2 competence qualification for the Apprenticeship they do not have to repeat this qualification, however, this qualification must have been achieved within five years of applying for the apprenticeship certificate and they will still have to demonstrate competence in the workplace.

4. Prior experience. Applicants already working in the sector will be able to have their prior experience recognised by the Awarding Organisation and this will count towards the competence and the knowledge qualifications in this framework.

Initial Assessment

Training providers and employers will use initial assessment to ensure that applicants have a fair opportunity to demonstrate their ability and to tailor programmes to meet individual needs, recognising prior qualifications and experience.

The remaining sections apply to all levels and pathways within this framework.

How equality and diversity will be met

The Automotive Retail Industry in Wales is mainly white male and the average age of the workforce is 39.

A breakdown of data for apprenticeship starts in Wales in the Automotive Retail Industry for 2007/2008 showed the following:

- Male 98%
- Female 2%
- White 99%
- Ethnic Minority 1%

The Apprenticeship route has been popular in the Automotive Retail Industry, particularly on the technical side, for a number of years; however recruitment still causes difficulties. The difficulties appear to result from the industry's image problems together with pay conditions and career prospects. In order to counteract some of these issues, awareness of the Automotive Retail Industry as a profession is being raised through:

- the Principal Learning Qualifications in the Welsh Baccalaureate for Engineering and Retail Business, which has automotive retail content;
- Headlight - free business studies resources available for schools with the motor industry as the exciting backdrop;
- Women in Work initiative, which is a financial incentive for employers towards the training costs for upskilling women in the sector;
- Autocity - Careers website for the Automotive Industry, which includes non stereotypical images.

Apprenticeships are seen as a vital route to encourage, and facilitate, a greater diversity of individuals into the industry, therefore entry conditions to this framework are extremely flexible and mentoring has been included to contribute towards increasing retention and achievement rates.

The IMI expects providers and employers to comply with the Equality Act 2010 to ensure that applicants are not discriminated against in terms of entry to and promotion within, the sector using the 9 protected characteristics of:

1. Age

2. Disability
3. Gender
4. Gender reassignment
5. Marriage and civil partnerships
6. Pregnancy and maternity
7. Race
8. Religion and Belief
9. Sexual orientation

Download the guidance on the Equality Act here:

www.equalityhumanrights.com/advice-and-guidance/new-equality-act-guidance/

The IMI will monitor take up and achievement of all Apprenticeships through its Apprenticeship Steering Group and take steps to address any barriers to take up and achievement as part of our Sector Qualifications Strategy.

On and off the job training (Wales)

Summary of on- and off-the-job training

Off-the-job training is the knowledge and Skills qualification plus the Employee Rights and Responsibilities (ERR) qualification, the Essential Skills Wales qualifications and Mentoring.

On-the-job training is the competence qualification.

Total On-and-Off the Job Training Hours

The total amount of on-and-off the job training hours is:

Level 2:

- Vehicle Sales: 1211 Hours

Level 3:

- Vehicle Sales: 1668 Hours

Off-the-job training

The total amount of off-the-job training hours is:

Level 2:

- Vehicle Sales: 727 Hours

Level 3:

- Vehicle Sales: 869 Hours

How this requirement will be met

Off-the-job training should:

- achieve clear and specific outcomes which contribute directly to the successful achievement of the framework and this may include accredited and non-accredited elements of the framework
- be planned, reviewed and evaluated jointly between the apprentice and a tutor, teacher, mentor or manager
- allow access as and when required by the apprentice either to a tutor, teacher, mentor or manager
- be delivered through one or more of the following methods: individual and group teaching, e-learning, distance learning, coaching, mentoring, feedback and assessment, collaborative/networked learning with peers or guided study

Providers will not be required to record individual on and off the job training hours. However for certification purposes, the provider will be required to declare that the apprentice has completed the on and off the job training hour requirement as set out in this Apprenticeship framework.

Training hours delivered under an apprenticeship agreement may vary depending on the previous experience and attainment of the apprentice.

The amount of off-the-job training required to complete the apprenticeship under the apprenticeship agreement may then be reduced accordingly, provided the total number of off-the-job hours for this framework can be verified for apprenticeship certification.

Previous attainment

Where a learner enters an apprenticeship agreement having previously attained parts or all of the relevant qualifications, this prior learning needs to be recognised using either QCF credit transfer for achievements within the QCF; or through recording of exemptions for certificated learning outside of the QCF, for example Principal Learning qualifications.

For apprentices who have already achieved the relevant qualifications, they must have been certificated within 5 years of applying for the Apprenticeship Certificate.

Previous experience

Where a learner enters an apprenticeship agreement with previous work-related experience, this prior learning needs to be recognised [see QCF Guidance on Claiming Credit for further details]. To count towards apprenticeship certification, previous experience must be recorded using the appropriate Awarding Organisation's QCF 'Recognition of Prior Learning' procedures and the hours recorded may then count towards the off-the-job hours required to complete the apprenticeship.

For apprentices with prior uncertificated learning experience, the off-the-job learning must have been acquired within five years of application for the Foundation Apprenticeship Certificate or have been continuously employed in the relevant job role in the industry for five years duration.

Breakdown of off-the-job training hours:

Level 2:

- Vehicle Sales (Knowledge and Skills qualification 389 Hours + ERR 8 Hours + Essential Skills Wales 180 Hours (60 Hours for each Skill) + Mentoring 150 Hours (an average of 2 Hours per week)) = 727 Hours

Level 3:

- Vehicle Sales (Knowledge and Skills qualification 531 Hours + ERR 8 Hours + Essential Skills Wales 180 Hours (60 Hours for each Skill) + Mentoring 150 Hours (an average of 2 Hours per week)) = 869 Hours

Evidence for off-the-job training hours:

Level 2:

- Level 2 certificate for the knowledge and skills qualification for the relevant pathway
- Certificate showing achievement of the ERR Award
- Level 1 Key Skills Certificate showing achievement of Essential Skills Wales in Application of Number, Communications and Information Communication Technology (ICT)

Level 3:

- Level 3 certificate for the knowledge and skills qualification for the relevant pathway
- Certificate showing achievement of the ERR Award
- Level 2 Key Skills Certificate showing achievement of Essential Skills Wales in Application of

Number, Communications and Information Communication Technology (ICT)

On-the-job training

The total amount of Training Hours for on-the-job is:

Level 2:

- Vehicle Sales: 484 Hours

Level 3:

- Vehicle Sales: 799 Hours

How this requirement will be met

On-the-job training hours should:

- achieve clear and specific outcomes which contribute directly to the successful achievement of the framework and this may include accredited and non-accredited elements of the framework
- be planned, reviewed and evaluated jointly between the apprentice and a tutor, teacher, mentor or manager
- allow access as and when required by the apprentice either to a tutor, teacher, mentor or manager
- be delivered during contracted working hours

Providers will not be required to record individual on and off the job training hours. However for certification purposes, the provider will be required to declare that the apprentice has completed the on and off the job training hour requirement as set out in this Apprenticeship framework.

These hours may vary depending on previous experience and attainment of the apprentice. Where a learner enters an apprenticeship agreement having previously attained or acquired the appropriate competencies or knowledge, this prior learning needs to be recognised and documented using the relevant QCF credit transfer, QCF exemption or RPL procedures (as off-the-job above). The amount of on-the-job training required to complete the apprenticeship

under the apprenticeship agreement may then be reduced accordingly, provided the total number of on-the-job hours for this framework can be verified for apprenticeship certification.

Apprentices who commence training under a new apprenticeship agreement with a new employer may bring a range of prior experience with them. When an apprentice can claim a percentage or more hours towards the on-the-job framework total through prior learning acquired from previous full-time education, employment or other vocational programmes, then the apprentice's learning programme should include 'customisation'.

Training providers are encouraged to identify additional on-the-job training programmes that customise the learning to the new workplace. Customisation programmes may include: Selecting appropriate additional Unit(s) from QCF qualifications, or relevant units recognised as Quality Assured Lifelong Learning [QALL] through a CQFW recognised body, following Essential Skills at a level higher than that specified in the framework including one or more Wider Key Skills or other competency-based qualifications/units relevant to the workplace.

For apprentices who have already achieved the relevant qualifications, they must have been certificated within 5 years from the date of application for the Foundation Apprenticeship/Apprenticeship Certificate or have been continuously employed in the industry for 5 years. Job roles within the Automotive Retail Industry require a thorough level of technical competence and knowledge, which will be undertaken through work-based training, practice and experience.

On-the-job learning must be formally recorded, either in a diary, workbook, portfolio, or be verified by attendance records. This evidence needs to be checked and signed by the employer, provider and Apprentice. The IMI reserves the right to request a copy of one or more of these records when applying for an apprenticeship completion certificate.

Evidence for on-the-Job Training Hours:

Level 2:

- Level 2 certificate showing achievement of the competence qualification for the relevant pathway

Level 3:

- Level 3 certificate showing achievement of the competence qualification for the relevant pathway
