Purpose of this framework

Summary of the purpose of the framework

Defining Apprenticeships

An Apprenticeship is a job with an accompanying skills development programme designed by employers in the sector. It allows the apprentice to gain technical knowledge and real practical experience, along with functional and personal skills, required for their immediate job and future career. These are acquired through a mix of learning in the workplace, formal off the job training and the opportunity to practice and embed new skills in a real work context. This broader mix differentiates the Apprenticeship experience from training delivered to meet narrowly focused job needs.

All apprentices commencing their Apprenticeship must have an Apprenticeship Agreement between the employer and the apprentice. This can be used to reinforce the understanding of the requirements of the Apprenticeship.

On completion of the Apprenticeship the apprentice must be able to undertake the full range of duties, in the range of circumstances appropriate to the job, confidently and competently to the standard set by the industry.

This framework is aimed at those individuals who wish to work in operational roles in leisure and recreation facilities ranging from leisure and recreation centres to caravan and holiday parks.

Aims and objectives of this framework (Wales)

The active leisure, learning and well-being sector as a whole had an estimated UK gross value added (GVA) output of £8.7 billion in 2008, accounting for 0.9% of the whole UK economy. The SkillsActive sector impacts on tourism, events, retailing, manufacturing and construction, and outperformed the UK four-fold in direct employment from 1999 to 2004. The Gross Value Added (GVA) output of sport, fitness, the outdoors and the caravan industry in Wales in 2008 equalled £225 million, accounting for 0.9 per cent of total Wales output.

Estimates suggest that the SkillsActive sector employs up to 31,800 people in Wales, this figure includes playwork and National Caravan Council (NCC) estimates. The workforce in Wales accounts for four per cent of the sector's UK employment. Sport, fitness and the outdoors is by far the largest of the sub-sectors, accounting for 62 per cent of sector GVA and 71 per cent of employment. The caravan industry is the second largest sub sector, accounting for 38 per cent of GVA, and 15 per cent of employment. GVA output for the Caravan Industry in Wales accounts for 10 per cent of total UK output, twice the proportion of the UK economy

which Wales represents. In Wales, the Caravan Industry employment has grown by a third between 2004 and 2007, when it reached 4,400.

The provision of recreational, sport and fitness facilities is a key element in the drive to improve the active lifestyles of individuals across all strata of the population. As outlined in *Creating an Active Wales*, regular engagement with physical activity has additional benefits to the wider economy. The report highlights that those who are physically active have as much as a 50 per cent reduced risk of developing major health related diseases in later life. Improvements to the number of people engaged in physical activity could therefore have long term bearings on health expenditure. Estimates suggest that physical inactivity costs the Welsh economy around £650 million per year.

There were 324 clubs in Wales in 2010 according to the FIA State of the Industry report, valued at £135m, equivalent to 4 per cent of the value for the UK as a whole. With regard to business start-up, figures from the Fitness Industry Association's 'State of the UK Fitness Industry' report suggest that around eight public and private facilities opened between 2009 and 2010 in Wales. The sector has seen growth since 2007 of around 11 per cent or 33 additional facilities (nine private and 24 public). Club membership in Wales stands at 330,000 with an average of 1,000 members per club. This is lower than average membership per club across the UK, which may be accounted for lower concentrations of population in Wales.

Across the UK, the private clubs comprise 54 per cent of all clubs and attract 61% of members. In Wales this proportion is different with privately owned clubs, including those located in hotel premises, accounting for a mere 40 per cent of all facilities open to the public, attracting an almost identical proportion of members at 41 per cent. This means that there is a far greater reliance on public provision of health and fitness sector services in Wales than there is in England.

Within the caravan industry, global drivers affect UK holiday taking, with the advent of budget airlines encouraging affordable access to foreign cities and holiday destinations. The National Caravan Council predicted that there would be an extra two million caravan holidays in 2009, taking the number to 14 million, as a result of people seeking better value holidays at home. The Welsh Health Survey 2009 suggests that around 57 per cent of adults are classified as overweight or obese (21 per cent are obese). Additionally, Wales records the highest levels of childhood obesity compared with the other Home Countries at 19 per cent. There is continued commitment to improve participation in sport and physical activity in Wales. *Creating an Active Wales* is the Welsh Assembly Government's plan for improving levels of physical activity in Wales (launched in 2009). The report outlines the need to increase participation in physical activity to ensure improvements in health and wellbeing and sets out a range of targets to increase activity levels.

Recreation and leisure assistants are those responsible for operating and maintaining these types of facilities. They ensure the cleanliness of the building, and will undertake regular

checks to ensure that standards of safety, environmental control and hygiene are maintained during opening hours. They may supervise the use of facilities, assemble/disassemble equipment and maintain the continuity of events.

Overall, this occupational group accounts for around 28 per cent of the SkillsActive workforce in Wales. In comparison to other home countries, it is important to note that Wales records the highest proportion of operational services roles, 28 per cent, compared with other Home Countries (18 per cent in England and 15 per cent in Scotland, 18 per cent UK). Typically, this type of job role has a high proportion of young workers. Across the UK, 58 per cent of the SkillsActive's workforce working as operational staff are aged between 16 to 24 years old, compared with 13 per cent across the economy as a whole and 29 per cent across the SkillsActive workforce. However, operational staff working in caravan parks are likely to fall within a higher age range.

Customer handling, team working and technical and practical skills have been identified by 17 per cent of the employers in the sector as skills that are lacking or need improving among their operational services staff. Communication, Health and Safety and first aid skills were also cited as skills needed by operational services staff.

Leading employers in this sector have identified the following strategy that will ensure the sector remains relevant to the Government policy aims and wider community needs:

- To migrate the sector from being 'fitness' specialist to be more relevant to everyone in the community
- To be more relevant to more people regardless of age, culture or gender
- To be an integral part of the national health and wellbeing strategy
- To become community activity hubs

The achievement of these goals, as stated by these employers, is dependent on the following:

- Up-skilling the 85% of workforce who do not benefit from a defined skills and career strategy
- Ensuring graduates are employer ready
- Ensuring 'soft skills' are a focus for training
- Ensuring there is a comprehensive training syllabus for all employees
- Creating a single qualification structure
- Clearly defining roles and career paths

In order to deliver this, employers in the leisure operations and management sector require more clarity when it comes to the key qualifications that support their workforce. The Operational Services apprenticeships programme will provide this clarity through a defined route to employment in the sector, and a foundation for progressing within it. The generic skills gaps that have been identified in this sector e.g. customer handling, technical and practical skills, communication, team working and problem solving, are addressed in the programme. Additionally, the technical knowledge and skills required in the Recreation Assistant role are

also provided for.

The Operational Services apprenticeship programme will provide individuals with the skills, knowledge and competencies required to deliver high level customer care, coupled with the technical ability to operate and maintain the facilities their customers visit. It will serve to sign-post potential entrants to the industry, along with giving those in employment the skills basis for developing their careers within the sector. The programme will also support the employer aims of improving the soft skills of their workforce, and identifying a unified qualification structure that can be adopted by the broad industry.

This framework will also contribute to the priorities of the Welsh Assembly Government set out in Skills That Work for Wales (2008) in particular:

Preparing Young People for the Future by:

- Developing a combination of technical occupational skills and generic work related skills.
- Providing a pathway from school and the Welsh Baccalaureate to employment.
- Requiring apprentices to obtain an understanding of the sector and its career pathways so that they can make informed choices about their future.

Investing in Apprenticeships by:

- Providing a comprehensive suite of apprenticeship frameworks, of which this is one, covering all of the main occupations in the active leisure and learning sector.
- Providing a framework that meets the requirements of the Specification of Apprenticeship Standards for Wales, that can integrate with the Welsh Baccalaureate and help end the separation between vocational and academic qualifications.
- Supporting the implementation of new QCF qualifications included in the framework.

Getting the basics right by:

- Supporting learners, who have not achieved basic skills during their schooling to obtain literacy, numeracy and ICT skills with Essential Skills Wales accreditation. This will help reduce the 25 per cent of adults in Wales who do not have Level 1 literacy skills and the 53 per cent who do not have Level 1 numeracy skills.

]

Entry conditions for this framework

[The **Foundation Level Apprenticeship in Leisure Operations** is designed for those individuals who are either already employed in the sector and wish to gain new knowledge and skills or who are looking to enter the sector and further develop their knowledge and skills to progress their careers. The framework is also suitable for those wishing to change career after having worked in a different sector.

The Apprenticeship in Leisure Management is designed for those who already work in the sector and wish to gain new knowledge and skills to continue their professional development as well as for those who wish to enter the sector in a supervisory/managerial role. The framework is also suitable for those wishing to change career after having worked in a different sector.

It is good practice that apprentices are interviewed by both their employer and training provider and undergo a centre devised initial assessment, testing their literacy and numeracy skills as well as their attitude to the workplace and customers.

Potential apprentices should have a positive, motivating, can do attitude and be willing to work both as part of a team or on their own. They should be motivated to succeed in the industry and be willing to work shifts, sometimes unsociable hours and travel between sites.

Potential apprentices are expected to have the skills to work with and motivate a variety of different clients they will work with. Apprentices might also need to undergo police checks for example when working with vulnerable adults and children. At an Advanced Level, Apprentices are expected to show the ability to develop outstanding managerial and customer services skills.

Apprentices will be given the opportunity to gain literacy and numeracy qualifications alongside their industry related skills and qualifications.

It is not a mandatory part of this framework to achieve ICT qualifications, although Apprentices are encouraged to take every opportunity to broaden their skills base.

Relationship between competence and knowledge qualifications

All knowledge qualifications offered in this framework are common unit qualifications based on National Occupational Standards for leisure operations.

All qualifications offer the same mandatory units to provide the underpinning knowledge to the competence qualification (identical but offered by a variety of awarding organisations):

- Understanding the Active Leisure and Learning Sector
- Understanding Employment Rights and Responsibilities
- Customer care and diversity in active leisure
- Health, safety, security and welfare in active leisure
- Developing self in an active leisure job role
- Teamwork in active leisure]

Essential Skills

An apprenticeship framework must specify as a Welsh certificate requirement the expected achievement levels of Essential Skills in Communication and the Application of Number.

Where Essential Skills qualifications are specified in an apprenticeship framework, the apprenticeship framework must specify the acceptance of a recognised proxy qualification for Communication and Application of Number.

Communication

For the current list of acceptable proxy qualifications and appropriate **minimum** grade/level requirements, please refer to the most recent version of [SASW](#) on the [gov.wales](#) website. Additional guidance materials can be found on the [Knowledge Base](#) section of the [ACW](#) website.

Does this framework require Communication achievement above the minimum SASW requirement? **YES** ☐

If YES, please state the grade/level required for English and give a brief **REASON** as to why this is required:

Progression routes into and from this pathway

PROGRESSION INTO THIS PROGRAMME

There are no pre-defined entry routes, however learners wishing to progress into this apprenticeship programme could come from a variety of backgrounds with a variety of qualifications.

These might include diplomas, GCSEs, Welsh Baccalaureate qualifications, A levels or vocational training routes such as Work Based Learning Pathways or other vocational qualifications and work experience.

Learners can also progress into this apprenticeship if they are already employed in the sector and wish to develop their knowledge and skills to progress their careers.

Learners can also progress into this programme from employment in a different sector as a career change.

PROGRESSION FROM THIS PROGRAMME

On completion of this apprenticeship, learners can progress onto the Apprenticeship in Leisure Management or any other level 3 programmes.

Learners can also progress onto a variety of vocational qualifications offered by private providers or Further Education colleges allowing them to gain further knowledge in any of our subsectors.

Please also check the SkillsActive Careers site for further information on progression opportunities and more detailed information on available job roles in the sector.

www.skillsactive.com/careers

CERTIFICATION

On completion of all components of this apprenticeship programme and meeting the full framework requirement, learners, or training providers/employers on the learners' behalf and authorized by the learner, must apply to the relevant Certifying Body to request the overarching apprenticeship certificate. For further information on this process please check the Apprenticeship Certification Wales (ACW) website on www.acwcerts.co.uk

Employee rights and responsibilities

Please note that for Apprenticeship starts from 14/10/2016 onwards ERR is no longer a **mandatory** requirement in all frameworks.

However, it may still be included in some frameworks and where it is not explicitly stated that ERR is not a requirement then confirmation of an Apprentice's ERR achievement will still remain a requirement for Apprenticeship certification purposes.

Is ERR a requirement for this framework? **YES** ☒ **NO** ☐

Delivery and assessment

In the Active Leisure and Learning sector the employee rights and responsibilities requirement of the apprenticeship programme will be met by all apprentices completing an externally assessed and verified qualification covering all nine national outcomes of the employee rights and responsibilities listed below:

- Employer and employee statutory rights and responsibilities under Employment Law
- Procedures and documentation in their organisation which recognises and protects their relationship with their employer/ Health and Safety and Equality and Diversity training must be an integral part of the apprentice's learning programme
- The range of sources of information and advice available to on employment rights and responsibilities
The role played by this occupation within the organisation and industry
- Types of career pathways open to the apprentice
- Types of representative bodies and understands their relevance to their industry and organisation and their main roles and responsibilities
- How and where to get information and advice on the industry, occupation, training and career
- The organisation's principles and codes of practice
- Issues of public concern that affect the organisation and industry

For this apprenticeship framework, the above listed outcomes are covered within the competence qualifications as the following units:

- Understanding the Employing Organisation
- Understanding the Active Leisure and Learning Sector
- Understanding Employment Rights and Responsibilities

These units covering the nine national outcomes of the employee rights and responsibilities will be delivered, assessed and evidenced as part of the NVQ Diploma in Leisure Management.

Evidence of achievement will be a copy of the NVQ Diploma in Leisure Management certificate clearly marking the above listed units as ERR.

How equality and diversity will be met

Apprenticeships in our sector aim to promote diversity, equal opportunity and inclusion by offering a high quality learning experience.

The delivery of this programme must be in a setting free from prejudice and discrimination where all learners can contribute fully and freely and feel valued.

The selection and recruitment of apprentices to the programme must be inclusive and available to all people regardless of age, disability, gender reassignment, marriage and civil partnership, race, religion or belief, sex, and sexual orientation (protected characteristics of Equality Act 2010).

ISSUES, BARRIERS AND ACTIONS

The health and recreation industry is made up of nearly 6000 private and public health clubs and recreational facilities.

The majority of the workforce are members of staff who work on the gym floor. As a result of the current economic situation, a possible barrier to entering the fitness industry is the fact that disposable income has considerably reduced in most households, therefore members of the public are more cautious about spending money on health club membership. There is notably a competitive spirit amongst health clubs offering shorter commitment periods, reduced joining /membership fees and competitive rates for group exercise sessions.

Unfortunately the current economic climate has also caused a drop in pay increases and reduced support in training and development due to the cost involved. However, an apprenticeship programme like this can contribute to continuous professional development and support for health and recreation facilities staff, by ensuring that those interested in entering the sector or are already employed in the sector are given the opportunity to gain and develop their knowledge and skills despite the current economic difficulties.

63% of the workforce is female and although they have a presence across all roles, this decreases as the roles become more senior. Having an intermediate level apprenticeship programme on offer in health and recreational facilities makes it possible for all members

of staff to develop their skills and knowledge. Therefore this framework can contribute to encouraging more women to develop their skills and the fact that an advanced level programme is available in both fitness and leisure management will enable them to progress their careers and fill more senior roles in the near future.

The health and recreation workforce is predominantly white at 92.5% with the remaining 7.5%

split between other minorities. By having an open access, prejudice and discrimination free recruitment process to our apprenticeship programmes, we are encouraging anyone interested from any race, religion and ethnicity to enter the sector, and in this way we can make a small contribution to trying to ensure the ethnicity balance will improve over a period of time.]

On and off the job training

Summary of on- and off-the-job training

[These hours may vary depending on previous experience and attainment of the apprentice. Where a learner enters an apprenticeship agreement having previously attained or acquired the appropriate competencies or knowledge, this prior learning needs to be recognised and documented using the relevant QCF credit transfer, QCF exemption or Recognition of Prior Learning (RPL) procedures. The amount of on the job training required to complete the apprenticeship under the apprenticeship agreement may then be reduced accordingly, provided the total number of on the job hours for this framework can be verified for apprenticeship certification.

Apprentices who commence training under a new apprenticeship agreement with a new employer may bring a range of prior experience with them. When an apprentice can claim 5 per cent or more hours towards the on the job framework total through prior learning acquired from previous full-time education, employment or other vocational programmes, then the apprentice's learning programme should include customisation.

Training providers are encouraged to identify additional on the job training programmes that customise the learning to the new workplace. Customisation programmes may include selecting appropriate additional Unit(s) from QCF qualifications, or relevant units recognised as Quality Assured Lifelong Learning (QALL) through a CQFW (Credit and Qualifications Framework Wales) recognised body, or follow Essential Skills at a level higher than that specified in the framework, include one or more Wider Key Skills or other competency-based qualifications/units relevant to the workplace.

Previous attainment

For apprentices who have already achieved the relevant qualifications, they must have been certificated no earlier than 6 months prior to the date the learner was registered on the programme. The number of training hours delivered under an apprenticeship agreement may vary depending on the previous experience and attainment of the apprentice.

The amount of off the job training required to complete the apprenticeship under the apprenticeship agreement may then be reduced accordingly, providing the total number of off the job hours for this framework can be verified for apprenticeship certification.

Previous experience

Where a learner enters an apprenticeship agreement with previous work-related experience, this prior learning needs to be recognised. For further details please see QCF Guidance on Claiming Credit. To count towards apprenticeship certification, previous experience must be recorded using the appropriate Awarding Organisation's QCF "Recognition of Prior Learning" procedures and the hours recorded may then count towards the off the job hours required to complete the apprenticeship.

For apprentices with prior uncertificated learning experience, the off the job learning must have been acquired within 2 years of application for the Foundation Apprenticeship Certificate or the apprentice must have been continuously employed in the relevant job role in the industry for a minimum duration of 3 years.

Foundation Apprenticeship in Leisure Operations

Apprentices completing this framework have to achieve a total of 398 hours containing both on and off the job training hours. The framework is advised to be completed within 12 months.
