## Consumer Electrical and Electronic Products

### Foundation Apprenticeship in Consumer Electrical & Electronic Products

#### Pathways for this framework at level 2 include:

##### Pathway 1: Delivering and Installing

**Competence qualifications available to this pathway:**

N/A

**Knowledge qualifications available to this pathway:**

N/A

**Combined qualifications available to this pathway:**

B1 - Level 2 Diploma in Delivering and Installing Consumer Electrical Products

B2 - Level 2 Diploma in Delivering and Installing Consumer Electronic Products

**This pathway also contains information on:**

- Employee rights and responsibilities
- Essential skills

##### Pathway 2: Repairing Module Faults

**Competence qualifications available to this pathway:**

N/A

**Knowledge qualifications available to this pathway:**

N/A

**Combined qualifications available to this pathway:**

B1 - Level 2 Diploma in Repairing Module Faults in Consumer Electrical Products

B2 - Level 2 Diploma in Repairing Module Faults in Consumer Electronic Products

**This pathway also contains information on:**

- Employee rights and responsibilities
- Essential skills

## Consumer Electrical and Electronic Products

### Apprenticeship in Consumer Electrical & Electronic Products

#### Pathways for this framework at level 3 include:

##### Pathway 1: Repairing Component Faults

**Competence qualifications available to this pathway:**

N/A

**Knowledge qualifications available to this pathway:**

N/A

**Combined qualifications available to this pathway:**

B1 - Level 3 Diploma in Repairing Component Faults in Consumer Electrical Products

B2 - Level 3 Diploma in Repairing Components Faults in Consumer Electronic Products

**This pathway also contains information on:**

- Employee rights and responsibilities
- Essential skills

# Framework information

## Information on the Publishing Authority for this framework:

### Instructus

The Apprenticeship sector for occupations in air conditioning, building services engineering, business and administration, cleaning, customer service, digital/information technology, electro technical, electrical and electronic servicing, enterprise and business support, facilities management, heating and ventilating, housing, human resources and recruitment, industrial relations, leadership and management, marketing and sales (also includes contact centres and third sector), plumbing, property and refrigeration.

Issue number: 1	<b>This framework includes:</b>
Framework ID: FR01713	Level 2 Level 3
Date this framework is to be reviewed by: 01/04/2017	This framework is for use in: <b>Wales</b>

## Short description

Apprenticeships for occupations in the Consumer Electrical & Electronic Products Sector are designed to meet the industry's competence requirements.

This framework document contains two occupation pathways at two different levels:

### Foundation Level 2 Framework

- Consumer Electrical & Electronic Products

The Foundation Level 2 framework provides an opportunity for new entrants to gain the skills and knowledge necessary for a career in an established industry, and for employers and apprentices to benefit from this structured learning and assessment programme.

Successful completion of this Foundation Level 2 framework reflect the ability to select and use relevant knowledge, ideas, skills and procedures to complete well defined tasks and address

straightforward problems. They include taking responsibility for completing tasks and procedures, and exercising autonomy and judgement subject to overall direction or guidance. Successful candidates then have the option to further develop their skills, knowledge and competence by progressing onto the Apprenticeship Level 3 framework.

#### Job roles

- Consumer Electrical & Electronic Products Installer
- Consumer Electrical & Electronic Products Module Faults Repairer

In order to demonstrate the industry recognised level of competence reflected by this Foundation Level 2 framework it is expected the minimum duration for its completion will be no less than 24 months.

#### Apprenticeship Level 3 Framework

- Consumer Electrical & Electronic Products

Progression into this framework is considered by employers to normally be for those who have already completed a Foundation Level 2 framework in Consumer Electrical & Electronic Products, or for individuals with comparable experience and knowledge. The structured learning and assessment programme of this framework will enhance the skills and knowledge of the entrant to the benefit of employers and apprentices alike.

Successful completion of this Apprenticeship Level 3 framework reflect the ability to identify and use relevant understanding, methods and skills to complete tasks and address problems that, while well defined, have a measure of complexity. They include taking responsibility for initiating and completing tasks and procedures as well as exercising autonomy and judgement within parameters. They also reflect awareness of different perspectives or approaches within an area of study or work.

#### Job roles

- Consumer Electrical & Electronic Products Component Faults Repairer

In order to demonstrate the industry recognised level of competence reflected by this Apprenticeship Level 3 framework it is expected the minimum duration for its completion will be no less than 24 months.

If applying Recognition of Prior Learning (RPL) for competence, knowledge or Essential Skills Wales then the Apprenticeship programme must be tailored to allow the apprentice to undertake new learning to a higher level and to develop new skills.

# Contact information

## Proposer of this framework

SummitSkills the Sector Skills Council for the Consumer Electrical & Electronic Products servicing industry has engaged with the Household Electrical & Electronic Services Training (HEEST) forum to ensure that the framework is fit-for-purpose. This strategic forum has a membership of employers, manufacturers, trade associations and training providers.

### Developer of this framework

# Purpose of this framework

## Summary of the purpose of the framework

This framework document is designed to provide new entrants with the opportunity to develop competencies that are needed to carry out job roles and responsibilities associated with Consumer Electrical and Electronic Products, including relevant:

- Technological requirements and changes
- Statutory and Non- Statutory Regulations & Requirements

It will also contribute towards meeting the skills priorities for Wales, highlighted in the following extract from 'The National Strategic Skills Audit for Wales; June 2011'

<http://www.ukces.org.uk/publications/nssa-wales-vol-1>

*"The Audit highlights the growing importance of technicians, the importance of replacement demands with regard to intermediate jobs in more traditional areas (skilled trades, for example); and the persistence of skills shortages at this level, perhaps seeing only temporary moderation due to the recession. Moreover, skilled trades are expected to be a key part of the skills mix within emerging sectors with high productivity levels, including elements of advanced manufacturing."*

The following job roles will be covered in the framework:

- Consumer Electrical & Electronic Products Installer
- Consumer Electrical & Electronic Products Module Faults Repairer
- Consumer Electrical & Electronic Products Component Faults Repairer

## Aims and objectives of this framework (Wales)

The aim of these occupation frameworks is to ensure that the Foundation (Level 2) and Apprenticeship (Level 3) programmes deliver:

- The Skills and Knowledge required by the industry to achieve competence
- Job related skills that will be used in the working environment
- Transferable Skills
- Career progression

Employers have endorsed this programme as it delivers qualified competent employees and improves productivity and retention.

Further information can be found at [www.summitskills.org.uk](http://www.summitskills.org.uk)

# Entry conditions for this framework

Although there are generally no nationally laid-down minimum entry or previous experience requirements to undertake the Foundation (Level 2) and Apprenticeship (Level 3) frameworks in the Consumer Electrical & Electronic Products, the following selection criteria may be used as guidance.

The programmes are likely to be suitable for individuals who:

- Have an aptitude for technical subjects and/or are practically minded
- Have an interest in technology
- Can demonstrate an ability to solve practical problems
- Have a portfolio of evidence of practical work experience, non-accredited courses, volunteering or have previously worked in the sector

A career in this industry will not only reward an apprentice's potential, but also offer opportunities to enhance their technical capability. The industry needs new entrants of appropriate ability and offers a varied and rewarding career in a challenging working environment.

Other selection criteria may include:

- Motivation to succeed
- Willingness to learn and apply that learning in the workplace/job role
- Enthusiasm and attitude to work
- Ability to demonstrate that they have the potential to achieve the qualifications which are part of the Foundation (Level 2) or Apprenticeship (Level 3) frameworks
- Ability to communicate effectively with a range of people
- Being numerate and literate
- Good colour vision to recognise colour coded wires and components
- Willingness to work in confined spaces
- Willingness to work unsociable hours
- Willingness to undergo a Criminal Records Bureau (CRB) check when required

Examples of formal qualifications that can be used as an indication that an applicant has the potential to progress into and complete either of the Foundation (Level 2) or Apprenticeship (Level 3) frameworks can be found in each individual occupation pathway.

No individual should be refused access to an initial assessment on the basis of educational qualifications alone. The ultimate responsibility for selection will rest with the individual employer.

## Level 2

Title for this framework at level 2

# Foundation Apprenticeship in Consumer Electrical & Electronic Products

### Pathways for this framework at level 2

- |            |                           |
|------------|---------------------------|
| Pathway 1: | Delivering and Installing |
| Pathway 2: | Repairing Module Faults   |

## Level 2, Pathway 1: Delivering and Installing

### Description of this pathway

Delivering and Installing - Delivering and Installing Consumer Electrical & Electronic Products in premises - 58 credits

- 40 credits for either combined qualification
- 18 credits for Essential Skills Wales Communication, Application of Number & IT

### Entry requirements for this pathway in addition to the framework entry requirements

Successful completion of this Foundation (Level 2) framework reflects the ability to select and use relevant knowledge, ideas, skills and procedures to complete well-defined tasks and address straightforward problems. It includes taking responsibility for completing tasks and procedures and exercising autonomy and judgement subject to overall direction or guidance.

Examples of formal qualifications that can be used as an indication that an applicant has the potential to progress into and complete the Foundation (Level 2) in Consumer Electrical & Electronic Products are:

- Welsh Baccalaureate Foundation Diploma
- Completion of a Welsh Government "Pathway to Apprenticeship" programme in Electrical Installation or Consumer Electrical and Electronic Products
- Essential Skills Wales or Key Skills in Communication and Application of Number and ICT at Level 2
- Completion of a 'Pathway to Apprenticeship' in Engineering & Plumbing
- GCSE grade A-D in each of the following:- a communication subject, maths and either a science or technical-based subject
- Level 1 GNVQs in relevant vocational/technical subjects
- A Level 1 'Access to Building Services Engineering' qualification

Job title(s)	Job role(s)
Consumer Electrical & Electronic Products Installer	Delivering and Installing Electrical & Electronic Products

## Relationship between competence and knowledge qualifications

This framework requires the completion of one of the combined qualifications B1a or B2a identified in the combined qualifications section above and detailed below.

Qualification Title - Level 2 Diploma in Delivering and Installing Consumer Electrical Products has the following units:

### Knowledge Units

- Customer care procedures and techniques when dealing with consumer electrical and electronic products Y/504/1883 **Unit Credit Value 6**
- Environmental legislation for consumer electrical and electronic products H/504/1885 **Unit Credit Value 9**
- Health and Safety legislation, practices and procedures for consumer electrical and electronic products J/504/1894 **Unit Credit Value 9**

**Knowledge Element = 24 credits**

### Competence Units

- Transporting and protecting consumer electronic and electrical products D/504/1884 **Unit Credit Value 7**
- Installing, testing and handing over of consumer electrical products K/504/1886 **Unit**

### ***Credit Value 9***

#### **Competence Element = 16 credits**

Qualification Title - Level 2 Diploma in Delivering and Installing Consumer Electronic Products has the following units:

#### **Knowledge Units**

- Customer care procedures and techniques when dealing with consumer electrical and electronic products Y/504/1883 ***Unit Credit Value 6***
- Environmental legislation for consumer electrical and electronic products H/504/1885 ***Unit Credit Value 9***
- Health and Safety legislation, practices and procedures for consumer electrical and electronic products J/504/1894 ***Unit Credit Value 9***

#### **Knowledge Element = 24 credits**

#### **Competence Units**

- Transporting and protecting consumer electronic and electrical products D/504/1884 ***Unit Credit Value 7***
- Installing, testing and handing over of consumer electronic products M/504/1887 ***Unit Credit Value 9***

#### **Competence Element = 16 credits**

#### **Total for either qualification = 40 credits**

For further qualification details refer to: <http://register.ofqual.gov.uk/> and search by the relevant qualification or unit number.

# Transferable skills (Wales)

## Essential skills (Wales)

Subject	Minimum Level
Communication	N/A
Application of numbers	N/A
ICT/Digital literacy	N/A

For a full list of available proxies for starts on or after 14th October 2016 please see section 24 of the current [SASW](#).

## Progression routes into and from this pathway

### Progression routes into this pathway:

Applicants may come from a range of routes including:

- Welsh Baccalaureate Foundation Diploma
- Completion of a Welsh Government "Pathway to Apprenticeship" programme in Electrical Installation or Consumer Electrical and Electronic Products
- Work or work experience
- Training and/or experience which could include a portfolio showing what they have done
- Academic qualification(s) such as three GCSEs grades A-D in each of the following:- a communication subject, maths and either a science or technical-based subject
- Achievement of Key Skills or Essential Skills
- Level 1 GNVQs in relevant vocational/technical subjects
- A Level 1 'Access to Building Services Engineering' qualification

No individual should be refused access to an initial assessment on the basis of educational qualifications alone. The ultimate responsibility for selection will rest with the individual employer

### Progression routes out of this pathway:

On successful completion of the Foundation (Level 2) Apprenticeship in Consumer Electrical & Electronic Products, an apprentice will have the skills, knowledge and qualifications to:

- Register on an appropriate Certification Scheme
- Progress to learning and assessment programmes that lead to relevant Level 3 qualifications and/or an Apprenticeship Level 3 in Consumer Electrical & Electronic

#### Products

- Progress in their career with further training into such job roles as Technician, Designer, Estimator, Workshop Supervisor/Manager, Sales Engineer or Commercial Manager

Further career guidance can be found at: [www.summitskills.org.uk/careers](http://www.summitskills.org.uk/careers)

# Employee rights and responsibilities

The Employee Rights and Responsibilities (ERR) elements identified below are likely to be achieved through an induction programme, in combination with either the Level 2 Diploma in Delivering and Installing Consumer Electrical Products (City & Guilds (600/6117/0) or the Level 2 Diploma in Delivering and Installing Consumer Electronics Products (City & Guilds (600/6118/2) into which they are integrated and signposted. The ERR elements will be evidenced by the issuing of a qualification achievement certificate plus a completed checklist which must be signed by the assessor and apprentice confirming all nine ERR elements have been achieved.

This checklist must accompany the claim for an Apprenticeship Completion Certificate and can be downloaded from

[www.summitskills.org.uk/Apprenticeships/Certification-and-Registration/219](http://www.summitskills.org.uk/Apprenticeships/Certification-and-Registration/219)

The delivery and assessment of ERR must be designed so that the apprentice:

1. knows and understands the range of employer and employee statutory rights and responsibilities under Employment Law and that employment rights can be affected by other legislation as well. This should cover the apprentice's rights and responsibilities under the Disability Discrimination Act, other relevant equalities legislation and Health and Safety, together with the responsibilities and duties of employers.
2. knows and understands the procedures and documentation in their organisation which recognise and protect their relationship with their employer. Health and Safety and Equality and Diversity training must be an integral part of the apprentice's learning programme;
3. knows and understands the range of sources of information and advice available to them on their employment rights and responsibilities. Details of Access to Work and Additional Learning Support must be included in the programme
4. understands the role played by their occupation within their organisation and industry;
5. has an informed view of the types of career pathways that are open to them;
6. knows the types of representative bodies and understands their relevance to their industry and organisation, and their main roles and responsibilities
7. knows where and how to get information and advice on their industry, occupation, training and career;
8. can describe and work within their organisations principles and codes of practice;
9. recognises and can form a view on issues of public concern that affect their organisation and industry

# Additional employer requirements

*(No requirement specified)*

## Level 2, Pathway 2: Repairing Module Faults

### Description of this pathway

Repairing Module Faults - Repairing Module Faults in Consumer Electrical & Electronic Products in premises - 64 credits

- 46 credits for either combined qualification
- 18 credits for Essential Skills Wales Communication, Application of Number & IT

### Entry requirements for this pathway in addition to the framework entry requirements

Successful completion of this Foundation (Level 2) framework reflects the ability to select and use relevant knowledge, ideas, skills and procedures to complete well-defined tasks and address straightforward problems. It includes taking responsibility for completing tasks and procedures and exercising autonomy and judgement subject to overall direction or guidance.

Examples of formal qualifications that can be used as an indication that an applicant has the potential to progress into and complete the Foundation (Level 2) in Consumer Electrical & Electronic Products are:

- Welsh Baccalaureate Foundation Diploma
- Completion of a Welsh Government "Pathway to Apprenticeship" programme in Electrical Installation or Consumer Electrical and Electronic Products
- Essential Skills Wales or Key Skills in Communication and Application of Number and ICT at Level 2
- Completion of a 'Pathway to Apprenticeship' in Engineering or Plumbing
- GCSE grade A-D in each of the following:- a communication subject, maths and either a science or technical-based subject
- Level 1 GNVQs in relevant vocational/technical subjects

- A Level 1 'Access to Building Services Engineering' qualification

Job title(s)	Job role(s)
Consumer Electrical & Electronic Products Module Fault Repairer	Repairing Module Faults in Consumer Electrical & Electronic Products

### Progression routes into this pathway:

Applicants may come from a range of routes including:

- Successful completion of an Foundation (Level 2) Apprenticeship in the Consumer Electrical & Electronic Products Sector
- Welsh Baccalaureate Foundation Diploma
- Completion of a Welsh Government 'Pathway to Apprenticeship' programme in Electrical Installation or Consumer Electrical and Electronic Products
- Work or work experience
- Training and/or experience which could include a portfolio showing what they have done
- Academic qualification(s) such as three GCSEs grades A-C in each of the following:- a communication subject, maths and either a science or technical-based subject
- Achievement of Key Skills or Essential Skills at Level 2
- Level 2 GNVQs in relevant vocational/technical subjects
- A Level 2 'Access to Building Services Engineering' qualification

No individual should be refused access to an initial assessment on the basis of educational qualifications alone. The ultimate responsibility for selection will rest with the individual employer.

### Progression routes out of this pathway:

On successful completion of the Apprenticeship (Level 3) in Consumer Electrical & Electronic Products, an apprentice will have the skills, knowledge and qualifications to:

- Register on an appropriate Certification Scheme

- Progression to relevant Level 4/5 qualifications e.g. Level 4 Building Services Engineering Technology & Project Management, Higher National Certificate in Construction and the Built Environment or Foundation Degree in Building Services Engineering
- To progress in their career with further training into job roles such as Technician, System Designer, Estimator, Site/Workshop Supervisor/Manager, Sales Engineer or Commercial Manager

Further career guidance can be found at: [www.summitskills.org.uk/careers](http://www.summitskills.org.uk/careers)

**UCAS points for this pathway: N/A**

# Employee rights and responsibilities

The Employee Rights and Responsibilities (ERR) elements identified below can be achieved through an induction programme, in combination with either the City & Guilds (600/6121/2) Level 3 Diploma in Repairing Component Faults in Consumer Electrical Products or the City & Guilds (600/6122/4) Level 3 Diploma in Repairing Component Faults in Consumer Electronic Products qualification into which they are integrated and signposted. The ERR elements will be evidenced by issuing a qualification achievement certificate plus a completed checklist, which must be signed by the assessor and the apprentice confirming all nine ERR elements have been achieved.

This checklist must accompany the claim for an Apprenticeship completion certificate and can be downloaded from:

[www.summitskills.org.uk/Apprenticeships/Certification-and-Registration/219](http://www.summitskills.org.uk/Apprenticeships/Certification-and-Registration/219)

The delivery and assessment of ERR must be designed so that the apprentice:

1. knows and understands the range of employer and employee statutory rights and responsibilities under Employment Law and that employment rights can be affected by other legislation as well. This should cover the apprentice's rights and responsibilities under the Disability Discrimination Act, other relevant equalities legislation and Health and Safety, together with the responsibilities and duties of employers;
2. knows and understands the procedures and documentation in their organisation which recognise and protect their relationship with their employer. Health and Safety, and Equality and Diversity training must be an integral part of the apprentice's learning programme;
3. knows and understands the range of sources of information and advice available to them on their employment rights and responsibilities. Details of Access to Work and Additional Learning Support must be included in the programme;
4. understands the role played by their occupation within their organisation and industry;
5. has an informed view of the types of career pathways that are open to them;
6. knows the types of representative bodies and understands their relevance to their industry and organisation, and their main roles and responsibilities;
7. knows where and how to get information and advice on their industry, occupation, training and career;
8. can describe and work within their organisation's principles and codes of practice;
9. recognises and can form a view on issues of public concern that affect their organisation and industry

# Additional employer requirements

*(No requirement specified)*

*The remaining sections apply to all levels and pathways within this framework.*

## How equality and diversity will be met

The nature of the work means that the Consumer Electrical and Electronic Products Industry is not a traditional career choice for women, but women do qualify and work successfully in the industry and this is encouraged. We are continuing to work with the UK Resource Centre for Women in Science, Engineering and Technology and the Platform 51 (formerly YWCA) to promote the opportunities for women working within the building services engineering sector.

SummitSkills will have overall responsibility for the development and review of the framework and for monitoring equality of opportunity, primarily by the analysis of the National Apprenticeship Service data.

There should be open recruitment of apprentices who meet the selection criteria, regardless of gender, ethnic origin, religion/belief, sexual orientation or disability .

All partners involved in the delivery of the apprenticeship and employers must be committed to a policy of equal opportunities and must have a formal equal opportunities policy and procedure in place. Employers/providers must be able to demonstrate that there are no overt or covert discriminatory practices in selection and employment. All promotional, selection and training activities must comply with relevant legislation such as the Equality Act 2010.

<http://www.equalityhumanrights.com/advice-and-guidance/new-equality-act-guidance/>

Providers will monitor equality of opportunity practice and procedures within their own organisation and take positive action when necessary. It is also recommended that employers/providers conduct an exit interview if the apprentice leaves the programme before completion.

# On and off the job training (Wales)

## Summary of on- and off-the-job training

**Overview of FOUNDATION Pathways - (either will meet the requirements of the Foundation (Level 2) Apprenticeship)**

### Delivering & Installing

Competence Qualification Total - 390 hrs (Knowledge Element 230 hrs + Competence Elements 160 hrs)

Essential Skills (ES) - 135 hrs (notional value of 45 hrs per ES x 3, which can be offset if previously completed)

Mentoring - 184 hrs (based on 46 wks x 2 hrs per full year over 24 months)

Minimum total Training Hours for this framework is 709 hrs

### Repairing Module Faults

Competence Qualification Total - 440 hrs (Knowledge Element 340 hrs + Competence Elements 100 hrs)

Essential Skills (ES) - 135 hrs (notional value of 45hrs per FS x 3, which can be offset if previously completed)

Mentoring - 184 hrs (based on 46 wks x 2 hrs per full year over 24 months)

Minimum total Training Hours for this framework is 759 hrs

### Overview of Apprenticeship Level 3 pathway - Repairing Component Faults

Competence Qualification Total - 510 hrs (Knowledge Element 410 hrs + Competence Elements 100 hrs)

Essential Skills (ES) - 135 hrs (notional value of 45hrs per ES x 3, which can be offset if previously completed)

Mentoring - 184 hrs (based on 46 wks x 2 hrs per full year over 24 months)

Minimum total Training Hours for this framework is 829 hrs

In addition to these hours we would encourage further practice take place in the work place as

Apprenticeships should normally require employment of at least 30 hrs per week as part of their Apprenticeship Agreement.

Training Hours must be delivered during contracted working hours under an Apprenticeship Agreement, or during a qualifying period ending on the date of application for a certificate.

All Training Hours must:

- be planned, reviewed and evaluated jointly between the apprentice and tutor, teacher, mentor or manager
- allow training support via a tutor, teacher, mentor or manager

Some of these hours may be offset through Recognition of Prior Learning (RPL) of suitable qualifications and demonstrable experience.

## Off-the-job training

**Foundation Level 2 Apprenticeship Pathways** - (either will meet the requirements of the Foundation Apprenticeship)

**Delivering & Installing** - Minimum total off-the-job Training Hours is 525 hrs over 24 months

- Yr 1 - 263 hrs
- Yr 2 - 262 hrs

**Repairing Module Faults** - Minimum total off-the-job Training Hours is 575 hrs over 24 months

- Yr 1 - 288 hrs
- Yr 2 - 287 hrs

## Apprenticeship Level 3

**Repairing Component Faults** - Minimum total off-the-job Training Hours is 645 hrs over 24 months

- Yr 1 - 323 hrs
- Yr 2 - 322 hrs

## How this requirement will be met

Training Hours will be achieved through clear and specific outcomes which contribute directly to the successful achievement of the framework and these may include accredited and non-accredited elements of the framework.

Training Hours will be delivered through one or more of the following methods: individual and

group teaching; e-learning; distance learning; coaching, mentoring; feedback and assessment; collaborative/networked learning with peers; guided study.

All Training Hours delivery to take place during contracted working hours & whilst working under an Apprenticeship Agreement.

This will be evidenced by training provider attendance statistics and assessment reports.

## On-the-job training

Minimum total on-the-job Training Hours for each pathway is 184 hrs over 24 months

- Yr 1 - 92 hrs
- Yr 2 - 92 hrs

These are the minimum number of Training Hours that should be allocated for the apprentice to gather evidence in accordance with the requirements of the competence qualification and mentoring.

## How this requirement will be met

Training Hours will be achieved through clear and specific outcomes which contribute directly to the successful achievement of the framework and these may include accredited and non-accredited elements of the framework.

Training Hours will be delivered through one or more of the following methods: individual and group teaching; e-learning; distance learning; coaching, mentoring; feedback and assessment; collaborative/networked learning with peers; guided study.

All Training Hours delivery to take place during contracted working hours & whilst working under an Apprenticeship Agreement.

This will be evidenced by qualification assessment records and reports.
